John Cross worked on my production 'Lady Of The Steps' as production manager. I was very pleased with the way he went about setting up the shoots. He thought of every detail and it meant really smooth completion of the schedule. His knowledge acting and the way he handled the auditions and the preparation of the actors was great. I found John to be very savvy about all aspects of production and it was a pleasure to work with him. Based on the experience of working with John on Lady Of The Steps, I recommend him and hope we work together again.
